

## Show Stopper by Alberto Martinez

It's opening night. The stage is set as the curtain rises on Alberto Martinez's latest masterpiece. As the lights come up we find ourselves transported to Shaftesbury Avenue in London's West End.

Characters from theatreland emerge to perform together for one night only! Alberto's unique, bold style shines through the picture as recognisable images are re-imagined with influences of his Cuban upbringing.

The car from Chitty Chitty Bang Bang is now a Cuban Chevrolet with butterfly wings and Aladdin's magic lamp is a re-purposed light bulb transformed with kerosene and a wick. The nuns from Sister Act are created from childrens' toys and a floating green candle blows bubbles into the sky.

Alberto Martinez invites you to join him on stage in this bold and magical theatrical masterpiece, Show Stopper.
